Portfolio

SUMMARY

Results-driven **Full Stack Developer** specializing in **MERN Stack** with hands-on experience building **scalable, production-ready web applications**. Proficient in **REST API design, JWT Authentication, Role-Based Access Control (RBAC), MongoDB, PostgreSQL**, and **Docker-based containerization**. Skilled in **React.js, Node.js, Express.js**, and **responsive UI design** with clean, maintainable code. Strong foundation in **Data Structures & Algorithms** with a problem-solving mindset developed through competitive programming. Passionate about writing efficient, scalable code and continuously adopting modern technologies to build impactful digital products.

EDUCATION

Guru Gobind Singh Indraprastha University (GGSIPU), New Delhi

Nov 2022 – Jun 2026

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.49

EXPERIENCE

Backend Development Intern

Jun 2025 – Jul 2025

Prodesk IT

Noida

- Designed and deployed scalable **RESTful APIs** using **Node.js** and **Express.js**, improving backend performance and supporting seamless frontend integration.
- Optimized **MongoDB** queries with **Mongoose** and engineered efficient backend logic, reducing API response time and enhancing overall application reliability.
- Collaborated with cross-functional teams to streamline workflows, accelerate deployment cycles, and deliver clean, maintainable backend architecture.

SKILLS & TECH STACK

Languages: Java, Python, C++, JavaScript (ES6+), SQL
Frontend: React.js, HTML5, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication
Databases: MongoDB, MySQL, PostgreSQL
DevOps & Tools: Docker, Docker Compose, Git, GitHub, Postman, Vercel, Railway

PROJECTS

TeamSync: Team Task Management Platform GitHub | Live Demo

MongoDB, Express.js, React.js, Node.js, JWT

- Built a **MERN** stack collaboration platform with **JWT Authentication** and **Role-Based Access Control** for Admin and Member workflows.
- Designed scalable **RESTful APIs** for task assignment, priority tracking, and deadline management with productivity dashboards.
- Implemented multi-member workspaces with real-time **activity logs**, role-based task visibility, and admin controls.

Inventra: Inventory & Order Management GitHub | Live Demo

React, FastAPI, PostgreSQL, Docker Compose

- Built a production-ready inventory system with **React**, **Python FastAPI**, and **PostgreSQL**, fully containerized using **Docker Compose**.
- Engineered **12+ RESTful API** endpoints with SKU/email constraints, negative-stock prevention, and automatic stock reduction on orders.
- Implemented an analytics dashboard with real-time KPIs including low-stock alerts, built using **Tailwind CSS** and **Recharts**.

HireIQ: Job Portal Platform GitHub | Live Demo

MongoDB, Express.js, React.js, Node.js, JWT

- Built a full-stack job portal with **RBAC** supporting distinct **Employer** and **Job Seeker** portals with tailored dashboards.
- Implemented **JWT Authentication** with **7-day session persistence** via **httpOnly** cookies, middleware, and protected routes.
- Enabled applicant tracking with **Pending/Accepted/Rejected** status updates and resume uploads via **Cloudinary**.

ACHIEVEMENTS & CERTIFICATIONS

- Problem-Solving Proficiency:** Solved **100+** DSA problems on LeetCode and GeeksforGeeks, consistently strengthening algorithmic thinking and problem-solving skills.
- Academic Excellence:** Ranked in the **Top 10%** of the batch with a **CGPA of 8.49**, one of the highest in the college.
- Hackathon Participation:** Active participant in multiple college hackathons and tech events, enhancing teamwork, rapid prototyping, and end-to-end implementation under time constraints.
- Industry Certifications:** Cisco Introduction to Cybersecurity | Oracle Cloud Infrastructure Foundations Associate | Udemy Mastering HTML5 and CSS3
